GOVERNANCE

TOOLS

INNOVATION

Tværgående kapacitetsopbyggende

- > Hav og fjord
- > Vandløb
- > Grundvand
- > Regnvand
- > Styring (eller Governance)
- > Værktøjer og
- > Innovation

Åben land projekter

- > Håb til Håb
- > Thyborøn Kanal og den vestlige Limfjord
- > Grenaaens opland
- > Randers Fjord
- > Gudenåen
- > Storåen

By projekter

- > Horsens Bycentrum
- > Klimatilpasning i Hedensted og Tørring
- > Klimabåndet
- > Thyborøn By og Havn
- > Borgerdreven klimatilpasning i Juelsminde
- > LAR som rekreative elementer

Tværgående innovative

- > AquaGlobe
- > Klimatorium
- > Permeable belægninger
- > Potentialer for øget infiltration
- > Klima historie | Kultur historie

Climate road

Western Limfjord and Thyborøn Canal

Climate Band – Municipality of Randers

AquaGlobe

Climatetorium – Lemvig city

Ambitions

- Better planning jointly, than separately
- Common strategy, coordinated plans and coordinated actions and investments
- Many complementary projects
- Proposals for new legislation in Denmark and updated program focus in the EU
- Make innovative projects with a lot of added value for the citizens/stakeholders
