IWA World Water Congress & Exhibition Tokyo 2018

Five days of critical discussions into the future of sustainable water management

Over 9815 leading water professionals from 98 countries came together between the 16th and the 21st September 2018 to shape our water future. Thought-leadership permeated workshops, debates, business forums, keynote speakers, technical and training sessions. Networking opportunities enabled new insights and partnerships, showcasing new ideas and solutions to solve the global water crisis.
