	Dinner	

Flood Risk management Scheme Site Visit

The morning session you will hear more about the Environment Agency's Flood Warning System and see one of our incident rooms and the technology we use during a major flooding.

In the afternoon we will visit the Fylde Coast, home to the UK's most popular Seaside Resort Blackpool, which attracts 19 million people annually. The Government has invested over £100 Million on coastal protection of the last 15 years, protecting over 25,000 homes.
